

## **DXNMedia Consultant (Singapore)**

Having professional advice and a secondary point of view can prevent likely investment mistakes, judgment errors, and waste of time or resources.

As an experienced and active media practitioner in the field of video & broadcast media with extensive knowledge in production workflows and media applications, we provide the following consultation services:

### **For manufacturers/vendors:**

- Video Equipment Review (Camera Equipment, VTR, I/O units, software)
- Beta testing
- Bugs report
- Troubleshooting
- Assist in Research & Development

### **For Companies/Government:**

- Equipment proposal for media application & requirements
- Recommend & provide solutions / workarounds
- Assess, review & provision of report for ITQ / Tender proposals
- Identification of over-specification by vendors
- Pricing investigation & Evaluation
- Overseeing of equipment implementation
- Application training

Here are the possible advantages of engaging a consulting service:

- Provision of fair & objective reports.
- No conflict of interest unlike salesmen, suppliers or product vendors who may have a different agenda or sales targets to hit.

Above all, we have our own reputation to uphold and we do not take up projects if we are not confident of handling it.
