

DXNMedia Lightweight Jib / Crane Service

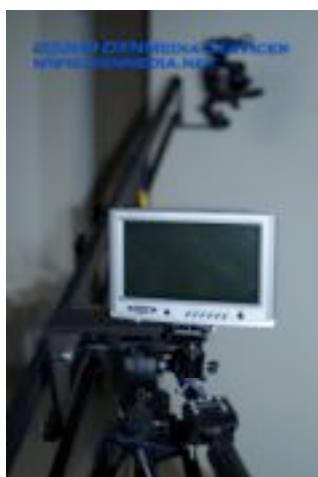

After using a few jibs available on the hire market, we realized that there are not many lightweight and hassle-free systems available. We took a long time to select a camera crane that meets today's production requirements, especially recognizing the trends in supporting the new DSLR video acquisition workflow with minimal crew operations.

We chose the Kessler KC-Lite 8ft system and offer the following basic package:

- 4.5kg maximum camera payload
- 2.4m maximum height
- Fully controllable tilt
- Wheeled dolly
- Varizoom Sony LANC Remote Controller
- Composite input LCD monitor
- Assistant Jib Operator

We can also provide complete Jib / crane packages with our available cameras and experienced Jib operators. Please contact us for booking details.
